

## Windows Virtual Desktop

### 4ward Has Earned the Microsoft Windows Virtual Desktop Advanced Specialization

Peschiera Borromeo - 30<sup>th</sup> November 2020 - [4ward](#) today announced it has earned the **Microsoft Windows Virtual Desktop advanced specialization**, a validation of a partner's deep knowledge, extensive experience and expertise in **deploying, scaling and securing virtual desktop infrastructure on Azure**.

Only partners that meet **stringent criteria around customer success and staff skilling**, as well as pass a third-party audit of their Windows Virtual Desktop technical practices, are able to earn the Microsoft Windows Virtual Desktop advanced specialization.

Supporting secure remote work for employees is **more critical than ever**. Windows Virtual Desktop is a Microsoft solution that seamlessly integrates with other Microsoft products and **allows customers to implement virtual desktops in a scalable, secure, and cost-effective way**.

Partners with validated capabilities in implementing Windows Virtual Desktop can help customers deploy and navigate the licensing efficiencies it offers to deliver the solution that is most efficient for their organization.

Christian Parmigiani, Chief Executive Officer at 4ward commented on the recognition: *"We are proud to have reached an important milestone: we have obtained the Microsoft Windows Virtual Desktop advanced specialization, a recognition that **only 5 other partners have received worldwide** and that certifies 4ward's expertise"*

Gavriella Schuster, Corporate Vice President, One Commercial Partner (OCP) at Microsoft Corp. added, *"The Microsoft Windows Virtual Desktop advanced specialization highlights the partners who can be viewed as most capable when it comes to deploying Windows Virtual Desktop in Azure. **4ward clearly demonstrated that they have both the skills and the experience to offer clients a path to transition to desktop-as-a-service in a scalable, secure, and cost-effective way.**"*
